

PianoDisc Speaker Installation Instructions

These speakers, PDS-500, come as a set, one is the master speaker and the other is a slave. The speakers come with the necessary mounting hardware, see list below.

Mounting Hardware

1. 4 mounting brackets (two per speaker) PN: 1900-12145
2. 8 mounting screws – PN: 1500-12237
3. 1 – RCA cable - PN: 1700-30013
4. 1 – Speaker interconnecting cable (6 ft. (2m))

Mounting Procedure:

1. Remove the speakers from the box.
2. Place the RCA cable into the back of driver speaker. (see pic below)
3. Place the speaker on the side of beam at the selected mounting location.
4. Place the speaker as close to the soundboard making sure cables do not touch the soundboard.
5. Draw a line on the speaker for the mounting bracket at the bottom of beam. (See picture below)
6. Mount the second mounting bracket on the side of beam to stabilize speaker. (See picture below)
7. Now repeat steps 3-6 to mount the slave speaker in the same fashion.
